This study aims to examine The Influence of Credit Allocation and Member Savings on Surplus Results at Koperasi Warga Setia RW.01 Tawangkulon.

The method used in this study is a Quantitative method with Multiple Linear Regression analysis techniques. The data used are Secondary Data obtained from the Cooperative's financial statements over the last fourteen years.

The results of the study show that Credit Allocation and Member Savings have a significant influence on Surplus Results at Koperasi Warga Setia RW.01 Tawangkulon. This means that the greater the credit allocation given by the cooperative and the greater the savings received from members, the greater the business results produced by the cooperative.

Keywords: Credit Allocation, Member Savings, Surplus Results
