

## **ABSTRACT**

YOGA HERDIANSYAH. 2023. *The Relationship between Achievement Motivation and Interest with the Level of Physical Condition of volleyball extracurricular members*. Department of Physical Education, Faculty of Teacher Training and Education, Siliwangi Universiats, Tasikmalaya.

*This research was motivated by the author not knowing the relationship between achievement motivation and interest and the level of physical condition of volleyball extracurricular members. This research aims to determine the relationship between achievement motivation and interest with the level of physical condition of extracurricular volleyball members at SMK Islamiyah Ciawi, Tasikmalaya Regency with a sample size of 30 people. The sampling technique uses total sampling. The instruments used in this research were an achievement motivation questionnaire, an interest questionnaire, and a physical condition test. Based on the results of data processing and analysis, it can be concluded empirically that there is a relationship between achievement motivation and interest together on the level of physical condition of extracurricular volleyball members at SMK Islamiyah Ciawi, Tasikmalaya Regency and the results of the hypothesis are accepted. This research emphasizes the importance of achievement motivation and interest in the level of physical condition of volleyball extracurricular members.*
