*This study aims to determine the effect of domestic investment, foreign investment, labor, and state spending on Indonesia's economic growth in 2000-2021. By analyzing (a) How domestic investment, foreign investment, labor, and state spending partially affect Indonesia's economic growth in 2000-2021, (b) How domestic investment, foreign investment, labor, and state spending together affect Indonesia's economic growth in 2000-2021. This study used secondary data with multiple linear analysis. The results of this study show that (a) Partially domestic investment, foreign investment, labor, and state expenditure have a positive and significant effect on Indonesia's economic growth in 2000-2021, (b) Together, domestic investment, foreign investment, labor, and state spending have a positive and significant effect on Indonesia's economic growth in 2000-2021.*

**Keyword:** *Domestic investment, foreign investment, government spending, economic growth.*
