

ACKNOWLEDGEMENTS

Alhamdulillah rabil ‘alamin, the researcher expresses her highest gratitude to Allah subhanahu wa ta’ala for blessing, love, opportunity, health, and mercy to complete this undergraduate thesis. This undergraduate thesis entitled ‘Systemic Functional Linguistics Analysis of Textual Meaning in EFL Students’ Fanfiction’ is submitted as the final requirement for an undergraduate degree at the English Education Department, Siliwangi University, Tasikmalaya.

In arranging this thesis, many people have provided motivation, advice, and support for the researcher. In this valuable chance, the researcher intended to express her gratitude and appreciation to all of them as follows:

1. Head of English Education Department, Faculty of Educational Sciences and Teachers’ Training, Siliwangi University, Tasikmalaya,
2. Neni Marlina, M.Pd., was my first supervisor. This thesis would not have been possible without her supervision, advice, and guidance from the very early stage of this research, which gave me extraordinary experiences throughout the past few years.
3. Sitti Syakira, M.Pd., as the second supervisor who has helped the author patiently finish this undergraduate thesis by giving suggestions, guidance, and corrections until the completion of this thesis.
4. All lecturers of the English Education Department, Faculty of Educational Sciences and Teachers’ Training, Siliwangi University, Tasikmalaya,
5. My beloved parents, Haryani and Jaenudin Edinur for the endless love, prayer, and support that followed her in every step of her life, especially during the process of her thesis,
6. My beloved brother, Robby Rifiana for his help whenever the writer needs,
7. My beloved husband, Gugun Gunawan, is the writer’s mood booster for his patience, support, love, care, and jokes, which can make the writer smile every day

even when the writer is in a bad situation. He has reminded me to keep going and never give up.

8. My best friends Feni, Velia Maya, Haikal, and Hendy have always been good listeners to every problem I faced, especially when I had to revise and restart this thesis repeatedly. Their opinions always surprise me and allow me to see my problem differently.
9. I would like to thank everybody who was essential to the successful realisation of this undergraduate thesis.

Hopefully, the results of the study will be helpful to those who read the study and are interested in the topic. I hope this is not the last study but the beginning of further studies for the future. Finally, the researchers realised that this study was far from perfect, even though I had done my best to complete this work. Therefore, constructive criticism, comments, and suggestions are welcomed for further study improvement.

Tasikmalaya, 2024

The Writer
