[ICSECC] Results of Paper Review and Inspection

1 pesan

Secretariat of ICSECC <icsecc@president.ac.id> 24 Agustus 2019 11.06
Kepada: andhangs@unsil.ac.id

Dear Author(s),

we have reviewed and inspected your final manuscript (FM). Attached please find the result of your FM review and inspection. Please improve your paper based on the results. You have 7 days to improve your FM.

We send also the conference template, for your reference.

Please indicate the changes you made to your FM by using **YELLOW/BLUE HIGHLIGHTS**. Please send the improved FM (or FM2) to icsecc@president.ac.id. The name format is <FM2.Paper ID.doc>. For example: FM2.088.doc.

Upon receiving, we will check your FM2. Please be reminded, that only papers that follow the checklist will proceed to the publication process to IEEE Xplore and indexed by Scopus.

Best regards,
ICSECC Publication Chair

[ICSECC] Fill Copyright Form

2 pesan

Secretariat of ICSECC <icsecc@president.ac.id> 30 Agustus 2019 09.28
Kepada: Secretariat of ICSECC <icsecc@president.ac.id>
Bcc: andhangs@unsil.ac.id

Dear Author(s),

we hereby ask you to fill the IEEE copyright form, as one requirement in the publication process.

Please complete the copyright form with the title of your paper, the name of authors, signatory name, signature, and date. An example is sent to you as attachment.

Please save in PDF format and send to us with the name CR.Your_paper_ID.pdf (for example, CR.084.pdf).

Thank you very much for your cooperation and attention.

Best regards,
ICSECC Publication Chair

Similarity Index Problem 087

5 pesan

Secretariat of ICSECC <icsecc@president.ac.id> 17 September 2019 16.59
Kepada: Asep Andang <andhangs@unsil.ac.id>

Dear Author(s),

we are in the preparation of publication process. As we conduct the mandatory similarity checking using IEEE's CrossCheck (crosscheck.ieee.org), the similarity index of your paper is **32%**. It is higher than 30% (maximum allowable similarity index). Please see below.

We also already conduct our own similarity checking using TurnItIn, and the result is also high, **34%**.

We therefore request you to revise your paper within **24 hours** and send us **your own** similarity checking results (TurnItIn from your own campus, etc). The result must prove that the similarity of your paper is below 30% (or even better below 25%).

We expect to receive your paper by **Wednesday**, **18 September 2019**, at **18:00**. If you fail to do so, then your paper cannot be included in the publication.

We are waiting for your fast response.

Best regards,
ICSECC Publication Chair

Kepada: Secretariat of ICSECC <icsecc@president.ac.id>

greeting,
We try to check the similarity with the turnitin that we have at Siliwangi University. The results we get are 8%, please confirm what is the difference, because when we check again, it turns out that some of the similarity is in terms of the method and tool names that are commonly used. For your consideration, we send the results of checking with turnitin. However we will paraphrase the verbs in paper, thank you

Dear Sir,

thank you very much. Please send us the DOC of your revised paper. We will use it for further process.

Best regards,
ICSECC Publication Chair

first of all, we are sorry
Our Turnitin test did not include bibliography, so we tried to revise the paper optimally without having to change the material, substance and research objectives. we also include the latest Turnitin test results at 27%
