

PREFACE

This study entitled "**Indonesian EFL Students' Perception on Synchronous Online Learning Using Skype during Pandemic Covid-19**" is a study about students' perceptions of using skype as a learning medium when they are required to study online because of the Covid-19 outbreak. In the background of the study, the author talks about the causes that require students to study online at home. Then, the author also conveys about the theoretical foundations of perception, synchronous online learning, Skype, and also the previous study about the use of Skype for synchronous online learning. Furthermore, the author also provides a brief explanation of the methodology to be used in this study. Meanwhile, the findings and discussion are presented in the second last chapter followed by the conclusion and recommendation.

The author believes that this research is far from perfect and there are still many shortcomings. Therefore, constructive feedback is really expected to make this research better. In addition, the author also hopes that this paper will bring positive value to readers.
